The screenshot shows the 'Cryptocurrency Withdrawal' interface. At the top, it says 'Balance > Cryptocurrency Withdrawal'. Below that is a 'Coin-withdrawal Description' box with the text: 'For a smooth withdrawal process, please ensure you are aware of any pending status for your withdrawal and address them promptly.' The form includes a 'Currency' dropdown menu set to 'BTC'. Below this are input fields for 'WithdrawAddress' (with an 'Address management' link) and 'WithdrawAmount' (with a green note 'Available: 0.000000 BTC'). Further down, it shows 'Withdrawal Fee' as '0.00' and 'Final Withdrawal Amount' as '0.00'. There are input fields for 'Fund Password' (with a 'Forgot your fund password?' link) and '2FA code'. At the bottom is a 'Submit' button.

GBX - DAX USER GUIDE | Fiat Withdrawal

1 Login to your GBX – DAX Account

2 Click 'Account' and then click 'My Balance'

3 Select the Fiat Asset and click 'Withdraw'

! You will need to bind your bank account before withdrawing

The screenshot shows the GBX - DAX account dashboard. On the left, a navigation menu includes 'Account Summary', 'My Balance', 'Transaction History', and 'Orders'. The 'My Balance' section is highlighted. The main content area displays the 'My Balance' section with a total of 0.00 USD and 0.00000000 BTC. Below this is the 'Fiat' section, which contains a table with columns for Currency, Balance, and Available. The table shows 0.00 for both USD and BTC. To the right of the table are 'Withdraw' and 'Deposit' buttons. Below the Fiat section is the 'Digital Assets' section, which contains a table with columns for Currency, Balance, Available, BTC Value, and USD Value. The table lists various digital assets (BTC, LTC, ETH, BCH, ETC, RKT) with zero balances. To the right of the Digital Assets table are 'Address management', 'Hide 0 balances', and 'Search' options. Below the Digital Assets table are 'Withdraw' and 'Deposit' buttons for each asset.
